Through Harold Brunner, Charles Steele has filed a complaint against P. M. Jagger and wife, seeking for a dissolution of partnership upon the signing by the plaintiffs of a note in Jagger's favor for $1265.68. The plaintiff alleges that he and the Jaggers entered into an oral partnership to buy and conduct as a summer resort the Toyken springs near Laytonville; that he put up $1,500 and Jaggers $1,250; that subsequently he put up $1,148.91 more and Jaggers neglected to match this sum with a similar amount and left the premises October 1, 1930. On March 27, 1931, Steele alleges that in accordance with their alleged agreement he offered Jaggers a note for the

Preston Cherry Weds Miss Vista Collins

Preston Cherry, well known and popular young business man of this city was quietly married to Miss Vista Collins, of Eureka, at the home of the Reverend E. R. Kimber, Presbyterian minister of Grants Pass, Oregon, Monday morning.

The news came as a complete surprise to their many friends.

The young couple were attended by the bride's sister, Portia Collins, and her mother and father, Mr. and Mrs. Frank Collins, of Eureka. Later a wedding breakfast was served at the Hotel Luff, in Crescent City. Immediately afterwards the newlyweds started for home.

Mrs. Cherry is an employee of the Mendocino state hospital, where she is the private secretary to Dr. Cushman. Mr. Cherry is the manager of the Cecille hotel.

Cherry stated Tuesday that their plans for the future are indefinite, but Mrs. Cherry will continue with her present position for awhile. They plan on taking an extensive honeymoon sometime in the near future.

Best wishes for a happy and prosperous married life are being received by Mr. and Mrs. Cherry.

Fort Bragg Forger Given Prison Term

James McAvoy, 21-year-old youth, was sentenced to serve from one to 14 years in San Quentin prison in the superior court by Judge Iversen Friday afternoon when he plead guilty to a charge of issuing worthless checks on a number of Fort Bragg business men. The crimes were committed during the month of July, while McAvoy was employed in the Union Lumber Co.'s butcher shop in the coast city.

McAvoy gave no excuse for cashing the worthless checks, only that he needed money. He was arrested at his mother's home in Santa Cruz by Sheriff Dick Williams August 1.

He was taken to San Quentin by Deputy Sheriffs Earl Bishop and Lew Morgan last Saturday.

Southern Cal. Man Arrested at Covelo

Walter C. Foit, 25, was taken in custody Tuesday at Covelo and brought to this city the same evening by Deputy Sheriff F. E. Woolley, acting on the advice of Sheriff Williams. Foit is wanted by Los Angeles police on a charge of burglary. Mrs. Foit accompanied her husband to this city and was returned to her home in Glendale by Los Angeles officers, who came to take her husband back to face the charge Thursday. The young couple hiked into the valley and were employed on the James Wilson ranch there about six weeks.

Many New Patients at State Hospital

Seventy-seven new patients were received at the Mendocino state hospital Tuesday. Forty-nine were taken from the Eldridge home for feeble minded and 28 from the Napa hospital. There has been 411 received in the last six weeks, Dr. Cushman, superintendent, stated Tuesday. Patients' quarters are filled to more than capacity and every spare bed is being used to take care of the increased number. According to the program laid out for the institutions by Dr. Toner, each hospital will be equalized and house about 2,900. The new ward 14, completed this year, is filled.

An engine house and a garage for attendants is now under construction at the hospital and a program of rigid economy is being practised under Dr. Cushman's supervision.

Barton Gulch Gang Ask for Probation

The five men taken into custody July 9 by the sheriff's office when officers raided a still in Barton gulch, near Wendling, appeared in the superior court Thursday morning with their attorney, Hale McCowen. In their arraignment several weeks ago the men plead not guilty and demanded a jury trial. This was set by Superior Judge Iversen for yesterday, but on their appearance in court they plead guilty to the charge and asked for probation. Their case was referred to Probation Officer Van Dyke, who will report on October 7.

The men are out on bail since their arrest. They are Santi and Lorenzo Catelli, Virgil Zenoni, Casimiro Becco, all of Healdsburg, and Waino Ruonvara of Fort Bragg.

Planes Lost in Fog Alight at Redwood

REDWOOD VALLEY, Sept. 21.—The landing of eight airplanes in Radhuber's field Sunday morning caused considerable excitement. The planes were en route to Covelo to the opening of the airport and on account of the fog could not get their bearings, so they dropped until the fog lifted. One of the first to land broke a wheel, which had to be repaired.

Mrs. T. Gullickson drove the flyer to Calpella, where the repairs were made.

Old Steam Laundry Burned on Tuesday

Fire of unknown origin completely destroyed the old Ukiah steam laundry at the east end of Clay street, early Tuesday morning. The Ukiah fire department was unable to check the flames and confined their efforts to protecting other buildings in the vicinity. The old Gobbi winery, next door, used by the Vonsen feed company as a store house, caught fire in the roof and one side but was quickly extinguished. No other damege was done.

The laundry has been abandoned for some time. F. C. Albertson is the owner. Some insurance was carried.

INSTALLS BIG SIGN

A beautiful 16-foot Neon sign was installed Wednesday night in front of the Ukiah pharmacy by E. L. Chelli, proprietor. It is the largest flasher sign north of San Francisco.

Business men in the vicinity are happy over the installation, as it materially adds to the attractiveness of south State street.

THAT ROY GOOD SALARY

(Editorial)

The Dispatch-Democrat last week published a communication dealing with the salary paid Roy Good, supervisor of schools of the Fort Bragg and Willits districts. The article has started a tempest of argument and a multitude of statements, both of affirmation and denial.

At the time the story came in last week the Willits contracts were not on file with the school superintendent. We investigated the statement as to Mr. Good's combined salaries and found that his warrants for July and August were for $816.66 each. Since the article went to print the contracts have been filed. According to them, while it is true that Mr. Good received $400 a month for the months of July and August from the two Willits schools, for the remaining ten months he will receive $40 a month from the Willits grammar school and $60 a month from the Willits high school funds, a total of $1,000 for the remaining ten months of the school year, which he is under contract to turn into the funds of the Fort Bragg grammar and high schools respectively. Nothing is said in the contracts as to the $800 already drawn from the Willits schools, but, we understand, this is remuneration to Mr. Good for his work in assisting with the organization of the Willits union districts. However, this $800 should not have been included in his salary warrants, as it is not, properly speaking, salary, and is not mentioned in his contracts.

Had the Willits contracts been on file, as they should have been, while the letter would have been printed, an explanation by the editor of this newspaper would have been appended and the matter set in its right light. The Fort Bragg contracts were on file, showing his salary as $5,000 a year for the two Fort Bragg schools and as his warrants showed he had received $400 a month additional from the Willits schools we assumed that our correspondent's information was correct and that his yearly salary was as stated in the communication.

At that, we do not understand why the money from the Willits district should be paid to Mr. Good before being given by him to the Fort Bragg funds. A far simpler process would seem to be for the Willits district trustees to pay the amount to the Fort Bragg funds without Mr. Good's acting as intermediary, provided it may be so done legally.

Burglars of Store at Willits Taken

Climaxing intensive efforts by the sheriff's office following the robbery of Muir's store at Willits, in which approximately $500 worth of goods and about $22.00 in cash was stolen, Earl Robinson, 29, itinerant, address unknown, James Delo, 17, of Wilmington, Delaware, and Geston Garner, 17, of Georgia, are in the county jail facing a charge of burglary.

The men were taken into custody by Deputy Sheriff Nellis, of Humboldt county, who had a description furnished by Sheriff Dick Williams, of this county.

Nellis happened to be in Alder Point on other business Saturday afternoon and fortunately picked the men up at the railroad station, where they were housed in a box car that had been sidetracked. They were en route south on the freight. About two-thirds of the loot was recovered by the officers. Deputy Sheriff Nellis brought the men as far as Garberville and was met by Sheriff Williams and Deputy Crawford, who brought the men here. They confessed, it is said, and gave as a reason for committing the crime that they were hungry.

A sack containing part of the loot was found near Longvale station during the week by a lady, who returned it to the owners. Another was dug up by Deputy Crawford where it had been buried by the men in their flight.

Watson Committed After Observation

After nearly five months of deliberation and investigation of his case by authorities, Emmett Watson, Fort Bragg youth, one of a trio of young men charged with a serious statutory offense, was committed for 10 years to the Sonoma state home for feeble minded, when he appeared for final disposition his case in the superior court Friday afternoon.

The three men were arrested during the month of June. Henry Hastie and Sam Stillwell, Indian, were involved in the crime. Hastie was released after a jury found him not guilty and Stillwell, after he turned states evidence. Examiners at the Mendocino state hospital found Watson had the mentality of a 9½-year-old child.

He was taken to the state home Saturday by Deputy Sheriffs Earl Bishop and Lew Morgan.

Knights of Pythias Hold Dist. Meeting

A district meeting was held by the Knights of Pythias in the Odd Fellows hall Wednesday evening, with a large attendance of members present to welcome Dr. Melville Ellis, of Long Beach, the grand chancellor of the order, who was here on his annual official visit.

The first part of the evening was devoted to a business meeting, which was followed by a district meeting, with Henry Spurr presiding. Ellis spoke at both and chose as his subject "Pythianism."

A delicious roast lamb dinner was afterwards served by the Pythian sisters. The committee in charge of the repast was Mrs. Minta Graf, Mrs. C. H. Duncan, Mrs. Lou Charlton and Mrs. Vincent Giorno. The guests were then entertained by Mr. Giorno with a number of vocal selections, accompanied by himself on the piano. These were enjoyed and concluded the evening.

Four Escape When Auto Turns Turtle

REDWOOD VALLEY, Sept. 21.—The young son of David Fonsen lost control of his car while descending the schoolhouse hill Tuesday evening and the vehicle went through the railing of the bridge at the foot of the hill, turned turtle and landed on the gravel bar. Fonsen was accompanied by his father, his brother and his sister. No one was hurt, aside from a shaking up and bruises. The front axle and wishbone of the car were badly bent.

This is a dangerous turn and has been the scene of several accidents.

A project to reconstruct the bridge with a view to eliminating the turn was recently started by Supervisor Ford, but was held up on injunction by a party named Freitas. The case is on appeal.

Alleged Thieves Will Face Lake Co. Court

W. A. Saunders, 18, and C. W. Jay, 19, itinerants, were arrested in front of a business house Saturday morning by Sheriff Dick Williams on advice of Lake county authorities, who want them on a charge of petty theft.

Deputy Constable W. H. Slankard, of Lake county, arrived Saturday afternoon to take the boys back to face the charge. It is alleged that they stole some food and a leather coat from Ada Clendenin, ranch owner of Scotts valley.

ACCUSED AS FIREBUGS

LAKEPORT, Sept. 21.—Thomas Cary and G. C. Wyckoff, reported to be Mendocino county residents, were arrested by Sheriff Taylor Day at Calpella, on the complaint of a federal fire investigator. They are charged with having caused a fire near M. B. Elliott's place and Lucerne on August 31. Their cases will come before Justice Fuller at Upper Lake soon. In the meanwhile they are in custody of the sheriff.

Mendocino Director in State of Revolt

A. R. O'Brien Speaks Right Out in Golden Gate Bridge Meeting Wednesday

A. R. O'Brien, militant editor of the Republican Press of this city, and Mendocino county's representative on the Golden Gate bridge board of directors, "spoke right out in meeting" at the session of the directors Wednesday and achieved front page space in all the San Francisco dailies.

O'Brien is noted here, in his home town for saying what he thinks and, although sometimes in a minority, his sincerity cannot be questioned. He is of the crusader type and anything but a "yes man." His revolt against program, therefore, was not unexpected to his friends and acquaintances in Ukiah.

One dispatch from the city says:

A. R. O'Brien, Ukiah publisher, member of the board of directors, declared the power of Alan MacDonald as general manager should be restricted and charged confidential decisions had "leaked out" of board meetings.

By innuendo, O'Brien accused MacDonald of "leaking" confidential decisions, while he was openly charged with trying to influence the findings of Robert A. Kinzie in favor of the San Francisco pier foundations and of making a secret contract with that engineer for $15,000 instead of $4,000.

"You can make Alan MacDonald Czar of this bridge board if you want to, because you have the votes, but you are not going to do it with my vote;" was the conclusion of Director O'Brien's attack.

Coast Girl Killed in Automobile Accident

Mrs. Elizabeth Kundert Menzelli, of Mendocino, was fatally injured last Saturday afternoon when a car she was driving crashed through the railing at the north end of the Jughandle bridge, near Caspar, and plunged seventy feet straight down to the bottom of the gulch. With Mrs. Menzelli were Frank Lapore and Ollie Woods, of Vallejo, both of whom will recover, it is said. Mrs. Menzelli lived but an hour after the accident.

The accident occurred at the place where four met death in a similar plunge two years ago. The victims of the former accident were Mr. and Mrs. Elmo Grivette and their little son, and Mrs. C. E. Jones, all of Fort Bragg.

The north approach to the bridge is a rather steep declivity ending in a sharp turn on to the bridge. Inexperienced drivers are apt to get to going too fast down the hill to make the turn and there have been many narrow escapes at the spot.

Fisherman Arrested and Held for Trial

Hans Larsen, 49, a fisherman of Fort Bragg, is in the county jail in default of $250 bail imposed on him Saturday by Justice of the Peace Bill Ware, of that city, following his arrest Friday night by Traffic Officer Joe Randolph, for drunken driving.

A car belonging to and driven by O. R. Bolden, 29, of Fort Bragg, was stalled at the side of the highway a short distance south of Fort Bragg, out of gas, it is said. While Bolden was away getting the fuel, Larsen drove his car into a collision with the stalled vehicle, which contained Miss Ruth Stickney, of Caspar.

Miss Stickney was uninjured.

Larsen was brought to this city Saturday by Constable Stenberg.

Mr. and Mrs. Preston Cherry, Ukiah's newest newlyweds, were the recipients of a beautiful upholstered chair as a wedding present from the Lions club at the regular noon meeting of that organization in the Palace hotel yesterday. The gift was presented by President Henry Spurr with a fitting speech. Both Mr. and Mrs. Cherry responded with an acceptance speeech.

Cherry is a past president of the organization.

Musical numbers by some of the members concluded the meeting.

Willits News

WILLITS, Sept. 21.—We have had another change in our weather and it now looks and feels very much like fall. At midday it is hot and the nights are cool. The atmosphere is also heavily laden with smoke and at times one cannot see the surrounding hills. No serious fires are reported at the forestry headquarters, although there have been lots of small ones. It is said that ranchers are burning brush land all over the county and all of these fires are being watched to see that they do not do any damage.

Finish Threshing

Alex Hellesoe and crew finished the threshing in this valley last week. The yield of the various grains is much smaller than it used to be and the unusually hot spell during the month of July is said to have shriveled wheat and other grains quite badly. All that is now left is a small quantity of Sudan grass and this can all be threshed in a few days.

Unique Contract

The state highway commission is going back to primitive conditions in order the better to spread out the work among the vast army of the unemployed. It is reported that the contract has been let for building the approaches for the new bridge across Little Dan creek, about 45 miles north of Willits on the Redwood highway. These approaches will aggregate about a mile and a half of heavy construction and all of the work will be done by pick and shovel and wheelbarrows. Trucks will be barred unless there is a haul of two miles or more. It is also reported that when the commission called for the bids they specified these conditions so the contractors knew what they were bidding on. We are told that they will employ about 300 men for several months and that Mendocino county laborers will be given the preference. The highway commission is to be congratulated for using such splendid judgment. Too much labor saving machinery and efficiency experts are largely to blame for the present deplorable conditions.

Inspect Shoreline Highway

Last week Supervisor J. M. Rupe accompanied C. A. Bedford, the locating state highway engineer, Sacramento, and Jack Piatt, the engineer who has been assigned to take charge of the Shoreline highway, from Willits to the Sonoma boundary line at Gualala. Both engineers are very much pleased with the splendid work which has been done on the Fairbanks highway which connects Willits with the coast. When the state takes it over in the secondary system no changes will be made in the grades and about all that will be done will be to widen it and then give it a rock foundation. From Mendocino to Gualala a lot of changes will have to be made in order to get the proper grades, but there will be nothing that will not be quite easy to handle.

This route is now officially known as District No. 23 and it is the intention to start work on it as soon as possible in order to find work for the great army of the unemployed. The state may have one of their unemployed camps along this proposed highway this winter.

Visits Ukiah

The following delegation of Willits ladies visited the ladies' circle of Druids at Ukiah last Thursday night: Mrs. Veva Curtin, Mrs. Jeanette Hall, Mrs. Billie Smith, Mrs. Jesse Cleary and the Misses Rosie and Angie Pietronave.

Melville's Mill

W. S. Melville came down from Jackson valley last Saturday and while here stated that he has completed his new sawmill and that he has already started getting out lumber. It will be remembered that Mr. Melville purchased the old Haun mill and that it burned down several months ago. The location of the new mill was changed and it is now in the midst of a splendid stand of virgin redwood timber. Mr. Melville finds no trouble in disposing of all the timber he can saw in the northern portion of this county.

Visiting Legionaries

An unusually large number of out of state cars filled with members of the American Legion passed through Willits during the past week. The boys had attended the national convention in Portland, Oregon, last week and decided to take in California on the way home.

John Karas, proprietor of the Crystal cafe, was a member of the famous 91st division and at the time of the armistice was in a hospital in France recovering from being gassed. On account of his vast acquaintanceship in state Legion circles his place of business was almost swamped and he estimates that he fed not less than 500 Legionaires. All of the Legionaires who made any comment were delighted with the redwoods and our famous Redwood highway.

Safeway Store

For some time there has been a report circulating here that the Safeway chain system were looking for a location in which to start a store in Willits. Reports have it that several locations are now being considered.

Killed Live Stock

Last week one hog and a sheep were slaughtered on the Alonzo Clark ranch a few miles east of Willits by someone who evidently wanted some fresh meat, for they dressed the animals on the ranch. The parties were seen but no attention was paid to them other than they were driving an old car and were poorly dressed.

Arlow Gravier has recently completed a new woodshed on his attractive home site north of the high school.

High school opened most auspiciously last week with an enrollment of 80 students under a corps of seven teachers. The freshman class numbers 28. Some interesting new features are being added this year which should make for better citizenship.

Enrollment at the grammar school for the first week was reported as 113.

Mrs. W. F. Ornbaun and Miss Wanda were guests during the week of Mrs. B. L. Hurt. Farrance Ornbaun is serving in the Neighborhood store in the absence of B. L. Hurt on a hunting trip.

Mrs. Frances Henley, of Ukiah, is a guest of Mrs. C. H. Hurt.

Is a dog a pedestrian? Even the most ardent automobilists will concede that a pedestrian has a right to at least a piece of the road, and if a dog is not a pedestrian, what is he?

This is a stock country, and every stockman knows that a good stock dog is beyond value. It is obvious that the hogs, cattle and sheep must be moved sometimes on the road, and equally obvious that automobiles should show them road courtesy on the few occasions when they are being moved on foot. Notwithstanding these well known facts, accidents will happen, and no amount of money or regret can compensate for the grief felt for the needless death of a faithful friend and fellow-worker.

The latest victim to the great god, Speed, was little Fanny, one of the hop ranch dogs. Last week Mr. Winters and Grant Winters were moving a band of hogs when a large car tore down upon them, as they were vainly striving to edge the hogs off the road. Fanny was working in the lead, so intent on her job that she had not the slightest chance, and mercifully never knew what killed her. The car was traveling at such a high rate of speed that it was yards before it could stop.

Fanny was the last of a very fine line of stock dogs, and the third dog owned by the Winters to be killed in six months by reckless drivers. We are glad to say that it was not home folks who were so heedless. We know too well the value of a good dog, and Round valley still has time to respect the rights of others.

The new house erected by the Slembrouck family on the ranch purchased by them from Dayton Patch is nearly completed.

Fall shearing has begun at the Spurlock ranch.

The data is practically the same for Point Arena Light, Navarro River Entrance, Little River Harbor, Mendocino Bay and Fort Bragg Landing. For Westport subtract 5 minutes from the time and for Shelter Cove add 0.8 ft. to high tide.

The minutes of the last regular meeting were read and approved as read.

A letter was received by the board from Fred W. Stickney, who requested that his name be omitted from the list of freeholders that signed the proposed charter for County of Mendocino, as he had signed same without due consideration. The district attorney advised the board that said name could not be omitted from said list.

The matter of the hearing of the directors report on Joint Highway District No. 20, set for hearing at this time, was postponed to 2:30 o'clock September 13, 1932.

It was ordered that the county clerk certify, to the county auditor, a list of persons serving as election officers at the elections held in Mendocino county on August 30, 1932, and that said county auditor draw his warrant in the sum of $4.00 to each of said officers for services as said election officers.

The said sale was confirmed by the board and the receipts of said sale deposited to the credit of Pine Ridge elementary school district. The board rejected the claim of Samuel C. May, against Mendocino county, for the sum of $500.00 for services rendered to board of freeholders, as, in the opinion of the district attorney, the claim is not properly itemized, not showing when services were rendered or when trips were made.

The board made an order that the county surveyor be allowed six cents per mile mileage for car on county business and two cents per mile additional when carrying additional help or supplies on county business.

Eighteen double or erroneous assessments were ordered cancelled, and the chairman of this board was authorized and directed to sign the orders for said cancellations.

The board adopted a resolution ordering the publication of the proposed charter for Mendocino county in one issue of each newspaper published in Mendocino county, with the exception of the Dispatch-Democrat in which will be found the official publication of said charter, at a cost to Mendocino county of not to exceed the cost of the first publication in the official paper of the board of supervisors, the Dispatch-Demcorat.

STATE THEATRE

The 25-minute prologue and stage presentation of the "Bird of Paradise," which showed for the first time last night, was well received by a packed house at the State theatre. The play is one of the big features of the year and has been playing to large audiences wherever shown.

Tonight is the last night. Don't fail to attend.

"The Vanishing Frontier"

The glamor of the old west is vividly portrayed in "The Vanishing Frontier," which comes to the States theatre tomorrow night. The picture is a romance of old California. Probably no period of American history is so packed with colorful action as the early days of our state when it passed from Mexican rule to independence and was then taken over by the United States. The film plunges boldly into the time of the oppressive military government, which was established to subjugate the California patriots who sought to maintain a separate state, and builds an exciting story of glamor and historical significance.

Johnny Mack Brown and Evalyn Knapp do a fine job of keeping the story on a glamorous level.

"Roar of the Dragon"

You will certainly like Richard Dix in the "Roar of the Dragon," which will be on the screen of the State theatre Sunday and Monday. No doubt you will remember his great performance in "Cimarron" and he is even better in this.

The picture is cast in far eastern atmosphere, dealing with guerillas in the little Manchurian town of Yoo Lu, their warfare and pirate raids on innocent river craft.

The picture is described as an out-and-out entertainment, fast riding, fast shooting and tumultus love-making.

"Man Wanted"

Kay Francis is again supreme in the play "Man Wanted," which will be at the State theatre Tuesday and Wednesday. She is cast as a rich society woman in a theme that appears to be "tailor made" for her. She likes business better than idle pleasure and publishes a smart magazine in order to occupy her time. While she works her play-boy husband occupies himself with debutantes and polo games. They find their marriage is a mockery and agree to separate. In the meantime Kay falls in love with her secretary, David Manners, while her husband leaves for Paris with his latest girl friend.

The story works out to the complete happiness of all concerned.

The cast is large and efficient. The story is novel and effective. The settings are beautifully carried out and include the Francis costumes.

"Triangle Case of Clara Deane"

She gave her heart, her joy, her happiness, her life—to a girl who never knew. She deserved so much; life gave her so little. She shot—but Justice pulled the trigger. Can you, who are without lost love, lost honor, condemn her? Not murder——but Justice. This heart gripping story is about a mother who kills her husband to save her child, Francis Dee, from a life of shame when she si about to marry a wealthy man. The child is the daughter of criminals who have served terms in prison for robbery and her mother tries to keep the bad record from the child and her future husband.

The film "Triangle Case of Clara Deane" will be shown at the State theatre, Thursday and Friday, featuring Wynne Gibson, Pat O'Brien, Francis Dee, Dudley Digges and many others.

Proposed Charter
For The
County of Mendocino

PREAMBLE

We, the people of the County of Mendocino, State of California, in accordance with the constitution and laws of the State, do ordain and establish this charter as the fundamental law for the government of the County.

ARTICLE I

Name and Powers of County

Section 1. The county of Mendocino as it now exists is a body corporate and politic, and as such has and shall have and exercise all the powers, expressed or implied, which have heretofore been or may be hereafter granted to counties by the legislature and the constitution of the State of California. The enumeration of particular powers by this charter shall not be held or deemed to be exclusive, but in addition to the powers enumerated herein, implied thereby, or appropriate to the exercise of county functions, the board of supervisors or officers or agents named herein or created hereunder, respectively, shall exercise all powers of county self-government which it would be competent for this charter to enumerate specifically.

Sec. 2. The corporate name shall be "County of Mendocino," which must be designated in all actions and proceedings touching its corporate rights, properties, and duties. Its boundaries and county seat shall remain as they are at the time this charter takes effect until changed in the manner provided by law.

ARTICLE II

Board of Supervisors

Section 1. The county of Mendocino is hereby divided into five supervisoral districts, the designations and boundaries of which shall be and remain as they are at the time this charter takes effect until changed in the manner provided by this charter.

Sec. 2. The county of Mendocino shall have a Board of Supervisors consisting of five members, each of whom must be a qualified elector of the district which he represents, must reside therein during his incumbency, must have been such an elector for at least one year immediately preceding his election, and who shall be nominated by the electors of said district in accordance with the primary laws of the state; but who shall be elected by the electors of the county at large in accordance with the election laws of the state, except as otherwise provided in this charter. At the primary election in each of the supervisoral districts from which supervisors are to be elected at the ensuing general election, the two candidates receiving the highest number of votes shall be nominated for the office of supervisor from that district, and their names shall be placed as candidates on the official ballot at the ensuing general election. The electors of the county at such general election shall elect one of such candidates as supervisor from that district.

Sec. 3. Each supervisor shall receive during his term of office a salary of fifty dollars per month in addition to mileage at the rate of six cents per mile, together with actual expenditures for necessary lodging and meals, payable monthly from the county treasury, for distances actually traveled from his residence to attend scheduled meetings, and return thereto. Whenever his duties might require him to visit different parts of the county, he may be reimbursed monthly for actual traveling expenses at the rate of six cents per mile, together with actual expenditures for necessary lodging and meals, upon presenting an itemized account for each journey to the auditor, but the total amount of such reimbursement shall not exceed one hundred fifty dollars in any calendar year.

Sec. 4. At the general election to be held in November, 1934, and every four years thereafter, supervisors shall be elected from the third and fifth supervisoral districts, whose terms shall begin at noon on the first Monday after the first day of January, 1935, and who shall serve four years and until their successors are elected and qualified; and at the general election to be held in November, 1936, and every four years thereafter, supervisors shall be elected from the first and second and fourth supervisoral districts, whose terms shall begin at noon on the first Monday after the first day of January, 1937, and who shall serve four years and until their successors are elected and qualified.

Sec. 5. The Board of Supervisors may by a four-fifths vote of its members change the boundaries of any supervisoral district within one year after a general election, but no such change in boundaries shall affect the incumbency in office of any supervisor.

Sec. 6. Whenever a vacancy occurs in the Board of Supervisors, the Governor of the state shall fill the vacancy, and the appointee shall hold office until the election and qualification of his successor. In such case the election of a supervisor shall be held at the next general election to fill such vacancy for the unexpired term, unless such term expires on the first Monday after the first day of January succeeding said election.

Sec. 7. No supervisor shall, during the term for which he shall have been elected or for one year thereafter, be eligible for appointment to any office or position carrying compensation and created by this charter or by ordinance.

Sec. 8. The Board of Supervisors shall elect a chairman at the first regular meeting on or after the first Monday after the first day of January of each year, who shall preside at all meetings. In case of his absence or inability to act, the members present must select one of their number to act as chairman **pro tempore**. The Board shall meet at least once each month at a time and place set by ordinance of the Board. Any member of the Board may administer oaths when necessary in the performance of his official duties. A majority of the members shall constitute a quorum, and no act of the Board shall be valid and binding unless at least three of the members in regular or special meeting concur therein. It shall be the duty of the Board of Supervisors, and such Board shall have the power to adopt a code of rules governing its procedure and to keep a record of all its proceedings, showing the aye and nay vote in all matters voted upon, and said records shall be open to the public at the office of the county clerk during regular business hours.

ARTICLE III

Powers and Duties of the Board of Supervisors

Section 1. The Board of Supervisors shall be the legislative and governing body of the county and shall have all the jurisdiction and exercise all the powers which have been heretofore or which may be hereafter granted by the constitution and laws of the State of California, or by this charter, to county boards of supervisors, including the power to levy taxes and appropriate funds, except as limited by this charter and not in conflict herewith.

Sec. 2. In addition to the other powers and duties herein provided, it shall be the duty of the Board of Supervisors, and said Board shall have the power:

(a) To appoint in the manner and method provided by this charter a county executive officer who shall be the general administrative officer of the county and executive agent of the Board; and the Board of Supervisors may by ordinance consolidate the office of county executive officer with any other office or offices which by the constitution and laws of the state or the provisions of this charter are subject to appointment or control by the Board of Supervisors or the County Executive Officer, including the power to appoint the County Executive Officer to act **ex officio** in any such office or offices for which he is qualified.

(b) To provide for the appointment of all county officers, boards, and commissions whose appointment or election is not otherwise provided for by this charter or under the constitution.

(c) To provide by ordinance for the compensation of county and township officers whose compensation is not specifically provided for by this charter and whose compensation is not exclusively governed by general law under the constitution; and to provide for the compensation of such fish and game wardens, probation and other officers as may be required by general law.

(d) To enact and maintain a written administrative code of rules based upon written recommendations of the County Executive Officer, specifying in detail the powers, duties, methods, and procedure of all officers and institutions, and prescribing the form of all records, accounts, and reports for each of the offices, institutions, and departments of the county where not otherwise specifically required by law.

(e) To provide for the assumption and discharge by county officials of municipal functions of cities and towns and functions of special districts within the county, according to general law, whenever requested to do so by such cities, towns, or special districts, upon such terms as may be agreed upon between the Board of Supervisors and the city, town, or special district requesting the performance of such functions. The compensation to be paid to the county for assuming and performing such function shall be such sum as may be agreed upon between the city, town or special district and the Board of Supervisors, but not exceeding the amount prescribed by general law.

Sec. 3. The Board of Supervisors shall have power:

(a) To provide by ordinance, upon written recommendation of the County Executive Officer, for new administrative offices, departments, and institutions other than those required by the constitution and laws of the state, or by this charter, or for divisions or subdivisions in existing departments, offices, or institutions, including temporary offices, departments, or commissions for special work, and to provide the necessary employments therefor, and to define the powers, duties, and functions thereof.

(b) To provide by ordinance, upon written recommendation of the County Executive Officer, for the consolidation, combination, transfer, distribution, segregation, or redistribution of county offices, institutions, functions, or agencies in whole or in part, and to transfer the powers, duties, and functions of any such administrative units or division or subdivision thereof, now existing or which may hereafter be created or established, to another or other administrative units, or divisions or subdivisions thereof, and to combine, transfer, redistribute, adjust, or abolish employments not required by general law, in accordance with such change; but no such establishment, consolidation, combination, transfer, distribution, segregation, or redistribution shall remove from the control and supervision of the County Executive Officer any office, department, or institution, or any division or subdivision thereof, or any function placed under his direction or supervision by this charter, or unlawfully affect those powers and duties of county officers which by the constitution must be subject to and controlled by general law. Whenever such consolidations shall be made, the Board of Supervisors shall have power, upon recommendation of the County Executive Officer, to exempt by ordinance the officers and deputies of such consolidated offices or departments from those proceedings, accounts, and reports between such consolidated offices which in their judgment are rendered unnecessary as a results of such consolidations, but which otherwise would be required by general law or the provisions of this charter.

(c) To require, if deemed expedient, any county officer or employee, before or after entering upon the duties of his office or service, to give bond for his faithful performance thereof in such manner and in such penal sums as may be fixed by the Board.

(d) To require periodic or special reports of any officer or employee, to examine all records and accounts, to inquire into the conduct of any office, and to require the attendance of any officer or employee of the county for purposes of information.

(e) To pass proper ordinances, in accordance with the constitution and the provisions of this charter, for the fixing and regulation of the appointment and number of assistants, deputies, clerks, attaches, and other persons to be employed from time to time in the several offices of the county, and for the prescribing and regulating of the powers, duties, qualifications, and compensation of such persons, the times at which and terms for which they shall be appointed and the manner of their appointment and removal; and all such appointments and removals of such employees by the County Executive Officer or other appointing officers of the county shall be in accordance therewith, provided, however, that the provisions of such ordinances shall not conflict with any express provisions of this charter relating to method of appointment and removal of such assistants, deputies, clerks, attaches, and other employees, their powers, duties, qualifications, compensation, the times of their appointment, and the terms for which they shall be appointed.

(f) To perform such other duties as may be authorized by this charter or required by general law and not otherwise provided for by this charter.

Sec. 4. Except for the purpose of inquiry, the Board of Supervisors shall deal with that part of the county administrative service over which the County Executive Officer is responsible solely through him and not through any of his subordinates, and neither the Board nor any member thereof shall give orders to any subordinate of the administrative services either publicly or privately, provided, however, that nothing herein shall restrict the power of hearing and inquiry by the Board of Supervisors. No member of the Board of Supervisors or committee thereof shall directly or indirectly, by suggestion or otherwise, attempt to influence or coerce the County Executive Officer or other appointive officer in the making of any appointment to or removal from any county office or employment in the administrative services, or the purchase of any supplies or equipment, or the awarding of any contract. A violation of the provisions of this section by any member of the Board of Supervisors shall constitute a misdemeanor, conviction of which shall immediately forfeit the office of the member so convicted.

He shall have the power, with the approval of the Board of Supervisors, to employ experts or consultants to perform work or give advice connected with any function of the county when such work or advice is necessary and cannot be furnished by any officer of the county.

Sec. 7. The County Executive Officer shall devote his entire time to the duties of his office and such other offices as have been consolidated therewith, and shall perform such other duties as may be required of him by this charter or by ordinance, resolution, or order of the Board of Supervisors.

Sec. 8. The County Executive Officer shall not have any power to expend any money except in pursuance of appropriations or authorizations to do so made by the Board of Supervisors, or to levy any tax, assesment, license, or charge on any property or person, or to exercise any legislative function, or to exercise any control over any elective officials not expressly provided for in this charter, or to lease, sell, or encumber any real or personal property of the county, except when as the administrative officer and agent of the Board of Supervisors he is required to enforce the provisions of duly enacted ordinances, resolutions, and orders of the Board of Supervisors relating to these matters, in accordance with this charter and the general laws of the State; provided, however, that nothing in this section shall be construed to prevent the Board of Supervisors in proper cases from ratifying the expenditure of limited sums of money in cases of emergency, as elsewhere provided in this charter.

Powers and Duties of County Officers

Section 1. Each and every county or township officer, board, or commission shall have the powers and perform the duties now or hereafter prescribed by general law, this charter, or by ordinance of the Board of Supervisors pertaining to such officer, board, or commission.

Sec. 2. In addition to the powers and duties conferred or imposed upon district attorneys by the laws of the state, the District Attorney shall also be the attorney for the Public Administrator and, in the matter of all estates which the Public Administrator has been appointed to administer, shall collect the attorney's fee allowed therein by law and pay the same into the county treasury. He shall devote his time exclusively to the duties of his office and shall not during his term of office engage in or be a member of a firm engaging in the private practice of law in the county.

Sec. 3. The Purchasing Agent shall be in charge of the county supply depot. Except as otherwise hereinafter provided, he shall make all purchases of furniture, fixtures, tools, materials, supplies, and equipment for all offices, departments, boards, commissions, institutions, and agencies of the county or township, and the officers thereof shall file with him such detailed estimates of materials, supplies, and equipment required, on such forms, at such times, and in such manner as shall be determined by the County Executive Officer.

Sec. 4. All purchases shall be made by the Purchasing Agent on written requisition of the officer requesting same, except that for materials, supplies, and equipment in common use by more than one office, department, agency, or institution, or used in large quantities, the Purchasing agent may purchase for stock on the basis of the total of such requisitions or estimates previously filed. Such stock of materials, supplies, and equipment shall be kept in the county supply depot and shall be issued by the Purchasing Agent on stores requisition and whenever so furnished shall be charged to the office, department, agency, or institution to which issued or delivered by transfer of the stores appropriation.

Sec. 5. Except as otherwise provided by this charter, the Purchasing Agent shall not furnish any materials, supplies, equipment, or any other personal property for any office, board, or institution, except on written requisition and unless there is an unencumbered balance to its credit sufficient to pay therefor, so certified by the Auditor.

Sec. 6. The Purchasing Agent, in cooperation with the officers of the county, shall provide for the standardization of materials, supplies, and equipment in accordance with the use to which the various articles are to be put, and shall provide for adequate specifications for materials, supplies, and equipment needed in large quantities or in common use. He shall require such periodic reports of stores on hand in the various offices and institutions as shall be determined by the County Executive Officer.

Sec. 7. All purchases shall be on such written purchase order or contract forms as shall be determined by the County Executive Officer, and copies of each order or contract shall be filed with the Auditor, the vendor or contractor, and the office, department, or institution concerned. All purchases in excess of five hundred dollars shall be by written contract, except that where an emergency exists as determined by the County Executive Officer, the Purchasing Agent may make such purchases in the open market on the basis of informal bids; and the Board of Supervisors shall by ordinance prescribe regulations not in conflict with general laws which will insure fair competitive bidding and award on all purchases by written contract.

Sec. 8. The Purchasing Agent shall secure competitive bids for contracts for insurance on persons and property and for security bonds for individual officers required to furnish same, regardless of the amounts involved.

Sec. 9. The Purchasing Agent may, in accordance with general law, act as purchasing agent for the purchase of school supplies and equipment, and may serve as purchasing agent for any city or district in the county so requesting, when so directed by the Board of Supervisors.

Sec. 10. The provisions of this article shall not apply to prevent or forbid the purchase by an officer of such minor articles not to exceed the sum of fifty dollars in any one month, as may be required for use in case of actual emergency; but all such purchases must be immediately reported to the County Executive Officer and the Board of Supervisors, and shall be subject to approval and allowance by the Board; nor shall the provisions of this article prevent the person in immediate charge of any county institution from purchasing perishable foodstuffs under such rules and regulations as shall be prescribed by the Board of Supervisors.

Sec. 11. The Purchasing Agent shall sell all personal property determined by the Board of Supervisors to be no longer required or suitable for county use in such manner as the Board shall direct. All such sales shall be reported to and ratified by the Board of Supervisors before becoming effective.

Sec. 12. The County Executive Officer shall organize the various officers, employees, and institutions of the county whose functions and activities relate to public health and welfare into a department of health and welfare, and shall either act as director thereof or designate some officer or employee of the department to act for him as Director of Health and Welfare.

Sec. 13 . The Director of Health and Welfare shall have general administrative supervision and control over the county hospital, the county farm, the detention home, the county physician, the health officer, the social agent, and over all other county institutions, agencies, offices, and activities relating to public health, sanitation, welfare, or relief, now existing or hereafter established as county functions, including services undertaken for municipalities within the county.

Sec. 14. The Director of Health and Welfare shall appoint and remove all officers and employees within the department authorized by the appropriation ordinances of the Board of Supervisors, except as the County Executive Officer may authorize those in immediate control of institutions and agencies to appoint and remove their subordinates in the manner provided in this charter for appointment and removal by officers.

Sec. 15.—Every county or township officer, board, or commission shall have the power to appoint his or their deputies, attaches, clerks, and other employees in such manner and at such salaries and with such qualifications as may be specified in the annual appropriation and other ordinances passed by the Board of Supervisors, except that no officer shall appoint as deputy, assistant, or employee any person related to him or to any other county officer or supervisor by blood or marriage within the third degree; but deputies, attaches or clerks holding appointment under an elective official, prior to September 1, 1932, and still employed in the same capacity at the time this charter takes effect shall not be affected by the provisions relating to relationship by blood or marriage, until such elective official shall have completed his present term.

Sec. 16. Any deputy, attache, clerk, or other employee may be removed by the officer who appointed him, or by the County Executive Officer, for any cause which will promote the efficiency of the service, but he must be furnished with a written statement of the reasons therefor and be allowed five days in which to make written reply thereto. The employee may be suspended from the date he is furnished the written statement. Within five days after receipt of the written reply the appointing officer or the County Executive Officer shall make a final written decision, and if the dismissed employee thereupon requests it, the officer shall file with the Board of Supervisors copies of the statement, the reply, and the decision, as a public record.

ARTICLE VIII

Township Officers

Section 1. The number of justices of the peace in townships, their election or appointment, the times at which and terms for which they shall be elected or appointed, and their compensation shall be such as may be provided by the state legislature, or if provision is not made by the state legislature, then as provided by ordinance of the Board of Supervisors. Until changed according to law, the number and boundaries of townships shall remain as established at the time this charter takes effect.

Sec. 2. There shall be one constable for each justice's court. Constables shall be appointed by the sheriff, to serve at his pleasure. They shall be deputy sheriffs and subject to the supervision and direction of the sheriff in all matters so far as consistent with their duties as constables, and in addition to the duties required of them by law, they must serve civil process within their respective townships or elsewhere when so directed by the sheriff.

Sec. 3. The salaries and allowances for expenses of constables shall be provided for by ordinance of the Board of Supervisors as full compensation for their services, which salaries need not be uniform for the several townships nor proportionate to population therein, and no fees or other moneys shall be allowed to be retained by persons who are constables except such fees for serving civil process as are allowed by general law. Every constable shall make settlement of and pay into the county treasury all fees collected by him, other than those above expressly excepted, in the manner and at the times specified in this charter for county officers and employees.

Sec. 4. If the state legislature shall substitute another system of inferior courts for the system of justices of the peace, the Board of Supervisors may exercise such powers regarding such new system as may be permitted by law, and shall modify or abolish the offices of justices or constables in accordance therewith.

ARTICLE IX

Roads and Highways

Section 1. All existing county road districts in Mendocino County which, at the time this charter goes into effect, are under the jurisdiction and control of the Supervisors as **ex officio** road commissioners are hereby consolidated into and shall remain a single county road district, and all the powers and duties heretofore vested by general law in such supervisors as **ex officio** road commissioners of their respective districts are hereby transferred to and shall be exercised by the County Engineer.

Sec. 2. Nothing in this charter shall be construed to prevent the formation of special districts, under general law, for the construction or improvement of roads or for other purposes, nor the exercise of the Board of Supervisors, as such, of any powers or duties necessary for the formation and financing thereof under general law.

Sec. 3. The County Engineer shall be **ex officio** Road Commissioner and **ex officio** County Surveyor, and shall have all the powers and duties and perform all the functions delegated by general law or the provisions of this charter to these offices, which are hereby consolidated under the title of county engineer. The County Engineer shall be a competent civil engineer who shall have had prior to his appointment at least two years' practical experience in road-construction work. He shall be appointed and may be removed by the County Executive Officer in accordance with the provisions of this charter, provided, however, that should the office of county engineer be consolidated with the office of county executive officer, or the County Executive Officer be directed by the Board of Supervisors to serve as **ex officio** County Engineer, then such appointment and removal shall be by the Board of Supervisors.

Sec. 4. The County Engineer, subject to such general rules and regulations as shall be prescribed by the Board of Supervisors and the County Executive Officer, shall have complete direction and control over all work of construction, maintenance, and repair of county roads, highways, bridges, and other public works, other than work done under contract except as otherwise specifically provided by law or by the Board of Supervisors in connection with an issue of bonds for highway purposes; and where work is done under contract it shall be his duty to supervise, examine, and inspect and report on such contract work as the same progresses, and see that the same is properly performed according to the plans and specifications and the terms of the contract, and when completed, to file his written report thereon with the County Executive Officer and the Board of Supervisors.

He shall have custody, control, and management over all county rock quarries and gravel pits and other county sources of road materials, and shall have custody, control, and management over and be responsible for all implements, tools, machinery, and other property, materials, and equipment in the possession of the county, required for or connected with the construction, improvement, maintenance, and repair of county roads, highways, bridges, and other public works, and shall keep such inventories and records and shall make such reports concerning same as shall be required by general law, the provisions of this charter, or ordinances and regulations passed thereunder.

Sec. 5. He shall, with the approval of the County Executive Officer, establish and maintain such road construction, maintenance, and supply stations as may be required for the performance of the functions of his office.

Sec. 6. The County Engineer shall prepare annually a proper budget setting forth in detail the needs and estimated expenditures of the county for construction, improvement, maintenance, and repair of county roads, highways, bridges, and other public works, in such form and in such manner as may be required by general law, the provisions of this charter, and the directions of the County Executive Officer and the Board of Supervisors which are not inconsistent therewith, and submit copies of same to the County Auditor, the County Executive Officer, and the Board of Supervisors at least sixty days prior to the date of the meeting at which the Board of Supervisors is required to fix the tax rate.

In preparing such annual program of recommendations and estimates of work to be undertaken and the proper allocation of funds therefor, he shall classify and reclassify from time to time all county roads and highways under a general plan based upon the amount and kind of traffic borne by each road and highway.

Sec. 7. No claims against the county for work done on or in connection with its roads, highways, bridges, or other public works, or for materials, supplies, implements, or machinery used for or in connection therewith shall be approved by the auditor, passed by the Board of Supervisors, or paid for by the county treasurer unless there shall have been endorsed thereon the written approval of the county engineer.

Sec. 8. In case an issue of bonds be voted by the county or by any special district therein, according to the general law, for the construction or improvement of roads, highways and bridges, or for reclamation, flood control, harbor, irrigation, water, sanitation, or any other purposes, or in case of the assumption by the Board of Supervisors, as provided in this charter, of any existing district or function, the County Engineer shall, under the general supervision of the Board of Supervisors, prepare or cause to be prepared all the necessary plans and specifications for all work in connection therewith, and shall have general charge of all construction, maintenance, and repairs as a part of his official duties, and shall receive no additional compensation for his services in connection therewith.

Nothing in this connection shall be construed as preventing the Board of Supervisors, upon recommendation of the County Engineer, approved by the County Executive Officer, from employing special engineers, architects, and consultants or other experts in the planning and construction of public works, other than roads and highways, when the nature of the improvement is such as to require highly specialized knowledge and ability.

Sec. 9. The County Engineer as **ex officio** Road Commissioner, shall, in addition to all the powers and duties conferred on him by general law, have and exercise the following powers and duties:

(a) To make all surveys, maps, plans, specifications, and estimates necessary or required for the construction, improvement, maintenance, and repair of the county highways and bridges and other public works.

(b) To inspect or cause to be inspected all county roads, highways, and bridges within the county, and to keep such roads, highways, and bridges clear of obstructions and in good repair, and, when same is not let by contract, to employ all labor, teams, sprinkling wagons, and other equipment necessary therefor, and to report to the County Executive Officer and the Board of Supervisors at such times and in such manner and detail as may be required in respect thereto, and to certify to the Auditor and the Board of Supervisors the correctness of all payrolls for work done by day labor or force account on county roads, highways, and bridges.

(c) To perform such other duties as may be required by law or this charter or by ordinance of the Board of Supervisors.

ARTICLE X

Budget and Accounting

Section 1. Except as otherwise provided by this charter, the financial and accounting procedure and practice shall be as prescribed by general law.

Sec. 2. The Board of Supervisors shall adopt a salary ordinance on or before the thirtieth day of June of each year, based upon the recommendation of the County Executive Officer and the tabulations of the auditor.

Sec. 3. The County Executive Officer shall establish a modern uniform system of accounting and reporting which shall require all officers, boards, and institutions to report to him, at such times and in such manner as he may direct, all necessary information concerning activities, personnel, funds, receipts, and expenditures, and enable him to maintain a continuous audit and the adjustment of existing and contemplated appropriations with the actual current needs of every office, board, and institution.

On or before the thirtieth day of May, at such time as the Board of Supervisors may direct, each county officer required by general law to file budget estimates for the next ensuing fiscal year with the Auditor shall submit to the County Executive Officer, on such form and in such manner as the County Executive Officer shall have prescribed, full and complete information concerning the estimates he proposes to submit to the auditor; and it shall be the duty of the County Executive Officer to consult with and advise such officers concerning their proposed estimates, in order that he may make proper recommendations to the Board of Supervisors when they are considering the adoption of the budget and appropriation ordinances as hereinafter provided.

Sec. 4. Upon receipt of the tabulation of budget estimates from the auditor, the Board of Supervisors shall immediately transmit a copy of such tabulation to the County Executive Officer, who shall examine same and make such written recommendations concerning any reductions, revisions, or changes in the various estimates and proposals which in his opinion are in the best interests of efficiency, economy, and service.

Sec. 5. The Board of Supervisors may authorize the County Executive Officer to provide for each organization unit in the administrative service a more detailed budget subclassification by functions and activities and within each object of expenditure a more detailed segregation than that provided by general law, and to allocate the proposed expenditures by time periods, in such manner as he may deem expedient, and when such subclassifications or segregation has been approved by the Board of Supervisors, each organization unit shall comply with such detailed classifications and segregations, and the time periods so provided, and transfer from one of such detailed items or periods to another only upon the written authorization of the County Executive Officer.

Sec. 6. The County Executive Officer shall have the power and it shall be his duty to recommend in writing to the Board of Supervisors the cancellation by them of any appropriation in whole or part or any item therein, whenever, in his judgment, the expenditure is unnecessary or not in the best interests of efficiency, economy, and service.

Whenever such recommendations are made, copies shall be delivered to the auditor, the purchasing agent, and the officer, board, or institution whose appropriations are affected thereby, and no expenditure of the items of appropriation referred to in the recommendation shall be made until the Board of Supervisors shall have had an opportunity to act upon the recommendation in the manner provided by law. When the Board of Supervisors is considering such cancellation, the officer affected thereby shall be allowed an opportunity to appear and defend the continuance of the appropriation, if he so desires.

ARTICLE XI

Elections, Initiative, Referendum, and Recall

Section 1. The use of the initiative and referendum, and the conduct of all matters relating to the nomination and election of elective officers shall be as provided by the constitution and general laws, except where otherwise herein expressly provided.

Sec. 2. The holder of any elective county or township office may be recalled in the manner provided by law, by the electors, at any time after he has held office six months. The provisions of this article shall be construed to apply to those officers who continue to hold offices filled by them for six months or more previous to the date on which this charter takes effect.

ARTICLE XII

Miscellaneous

Section 1. Appointive officers or employees serving with compensation under this charter are prohibited from engaging in any political activity for or contributing or soliciting funds or support for or in behalf of any elective officer provided herein, or for any candidate for such elective office. Such activity shall constitute a just cause for removal by the Chief Executive Officer and the Board of Supervisors.

Sec. 2. No county officer or employee shall be interested directly or indirectly in any contract or transaction with the county, or become surety upon any bond given to the county. No officer or employee shall receive any commission, money, or thing of value, or derive any profit, benefit, or advantage, directly or indirectly from or by reason of any dealings with, or service for the county, by himself or otherwise, except his lawful compensation as such officer or employee. Any violation of the provisions of this section shall render the contract or transaction voidable at the option of the Board of Supervisors.

Sec. 3. Nothing in this charter is intended to affect, nor shall be construed as affecting, the tenure in office of any of the elective officers of the county or of any district, township, or division thereof in office at the time this charter goes into effect, and such officers shall continue to hold their respective offices until the expiration of the term for which they shall have been elected, unless sooner removed in the manner provided by law; nor shall anything in this charter be construed as changing or affecting the compensation of any such officer during the term for which he shall have been elected, but the successors of each and all such officers shall be elected or appointed and compensated as in this charter provided and not otherwise.

Sec. 4. In the employment of persons in the service of the county where sex does not actually disqualify, and where the quality and quantity of service is equal, there shall be no discrimination in selection or compensation on account of sex.

Sec. 5. In fixing compensation to be paid, based upon the recommendations of the County Executive Officer, the Board of Supervisors shall in each instance provide a salary or wage at least equal to the prevailing salary or wage, for the same quality of service rendered to private persons, firms or corporations under similar employment, in case such prevailing salary or wage can be ascertained.

Sec. 6. Except as otherwise expressly excepted in this charter, all fees and money other than salaries and travel expense reimbursement received by any county or township officer or employee shall be paid into the county treasury on the first Monday of each calendar month or at such additional times as may be directed by the County Executive Officer, together with a detailed statement of the same, on such forms and in such manner as may be directed by the County Executive Officer, duplicate copies of which shall be filed on the same day with the County Auditor and the County Executive Officer.

Sec. 7. Whenever it is necessary for any county officer or employee to travel in the performance of his official duties, he shall be reimbursed for his actual traveling expenses according to a uniform system of such rules and regulations regarding applications, maximum allowances, and reports as shall be determined by the Board of Supervisors upon recommendation of the County Executive Officer, but nothing in this section shall be construed as preventing the mileage allowance of the sheriff and his deputies to be fixed at a rate which may exceed by not more than two cents a mile the uniform rate established by them for other officers and employees.

Sec. 8. If any section, subsection, sentence, clause, or phrase of this charter is, for any reason, held to be invalid or unconstitutional, such validity or unconstitutionality shall not affect the validity or constitutionality of the remaining portions of this charter, it being expressly declared that this charter, and each section, subsection, sentence, clause and phrase thereof would have been prepared and proposed, adopted, approved, and ratified irrespective of the fact that any one or more sections, subsections, sentences, clauses, or phrases be declared invalid or unconstitutional.

Sec. 9. All ordinances of Mendocino County in force at the time this charter takes effect and not in conflict with the provisions hereof shall continue to remain in full force and effect until amended or repealed.

Sec. 10. All acts and parts of acts of the laws of the State of California relating to the County of Mendocino inconsistent herewith are hereby repealed as far as they apply to said county.

Sec. 11. This charter may be amended at any time in accordance with the provisions of Section 7½ of Article XI of the Constitution of the State of California, or any amendment thereof or provision substituted therefor in the constitution.

Sec. 12. This charter shall take effect for the purpose of selecting a county executive officer and the preparation of a budget upon its approval by the legislature, and for all other purposes on July 1, 1933.

We, the undersigned members of the Board of Fifteen Freeholders of the County of Mendocino in the State of California, elected at an election in the said county on the thirtieth day of August, 1932, to prepare and provide a proposed charter for the said county, under and in accordance with Section 7½ of Article XI of the Constitution of this State, have prepared and we do hereby propose the foregoing as and for a Charter for said county.

DEMOCRATIC CHANCES BRIGHT

With the party primaries settled and the state conventions over, California voters may now decide whom they intend to support at the general election in November. A survey of the field shows the Democratic candidates occupying a very enviable position. The Republican disaster last week in Maine, which went Democratic for the first time since 1914, it is stated, has greatly strengthened the prestige of the Democratic party all over the country and it is now almost a foregone conclusion that California will go for Roosevelt and Garner. The partisan registration shows a ratio of about one and one-half Republican to one Democrat, whereas the registration in former years has been three or four to one. So slight a lead in the registration indicates a strong revolt against the Hoover regime and there is every likelihood that Roosevelt and Garner will carry the state.

In regard to the senatorial contest, McAdoo's chances look brighter every day. The conservative Republican vote, which went for Shortridge in the primary, is turning to the Democratic candidate, unable to stomach the candidacy of Tallant Tubbs, whose only plea for election is that he is wet. Lending additional strength to McAdoo's chances is the attitude of the Republicans of southern California, who see in McAdoo's candidacy a chance at last to elect a senator from that section. Reports are that there is a concerted effort being made to prevail upon the voters of southern California, irrespective of party, to get behind the southern California candidate. Both senators have been elected from the northern part of the state for so long that the memory of man runneth not to the contrary and the argument will, therefore, have a potent effect.

McAdoo in the senate would bring honor both to the party and the state. He is a national figure, a figure of presidential magnitude, and one of the most able statesmen in the nation today. His career is untinged with anything even remotely approaching discredit and the record of both his public and his private life is without a blemish. California would honor herself by his election.

In our own congressional district, Clarence F. Lea was elected in the primaries by obtaining the nominations of both parties and his remarkable strength in this congressional district will lend strength to both the national and senatorial tickets of the Democratic party.

Lea has a remarkable record, having been reelected time after time in this, a strong Republican district. He is a statesman of splendid attainments and has been a credit both to California and to his district. He is one of the best liked men in the lower house, enjoying the confidence and esteem of the members of both parties. He has always been a "square shooter" and has never made a promise he has not fulfilled. His career is indeed an enviable one and there is general satisfaction that he is going back.

Willis acting on behalf of the club presented Mrs. George Clow, past president, with a club pin token of their appreciation. Mrs. Clow graciously accepted their gift and in a few well chosen words, thanked the members.

The apple show dates are rapidly approaching and the board of directors have about completed all the details of this year's amusement features and all the many details that go to make the Anderson valley show one of the features of the year in this part of the state.

The West Coast Amusement Co. are bringing in their big midway feature and the rides and attractions that go along with a successful amusement feature.

Paul Jung and his "Rioteers" are being sent in to this year's show by the United Attractions.

A very attractive horse race card is also in preparation. Several new horses now in the valley promise some real interesting races.

The Standard oil announcer car will be with us again this year in charge of the inimitable Bud Bentley, which of itself assures us of a very satisfactory show.
